

# Flowers

# Odd One Out

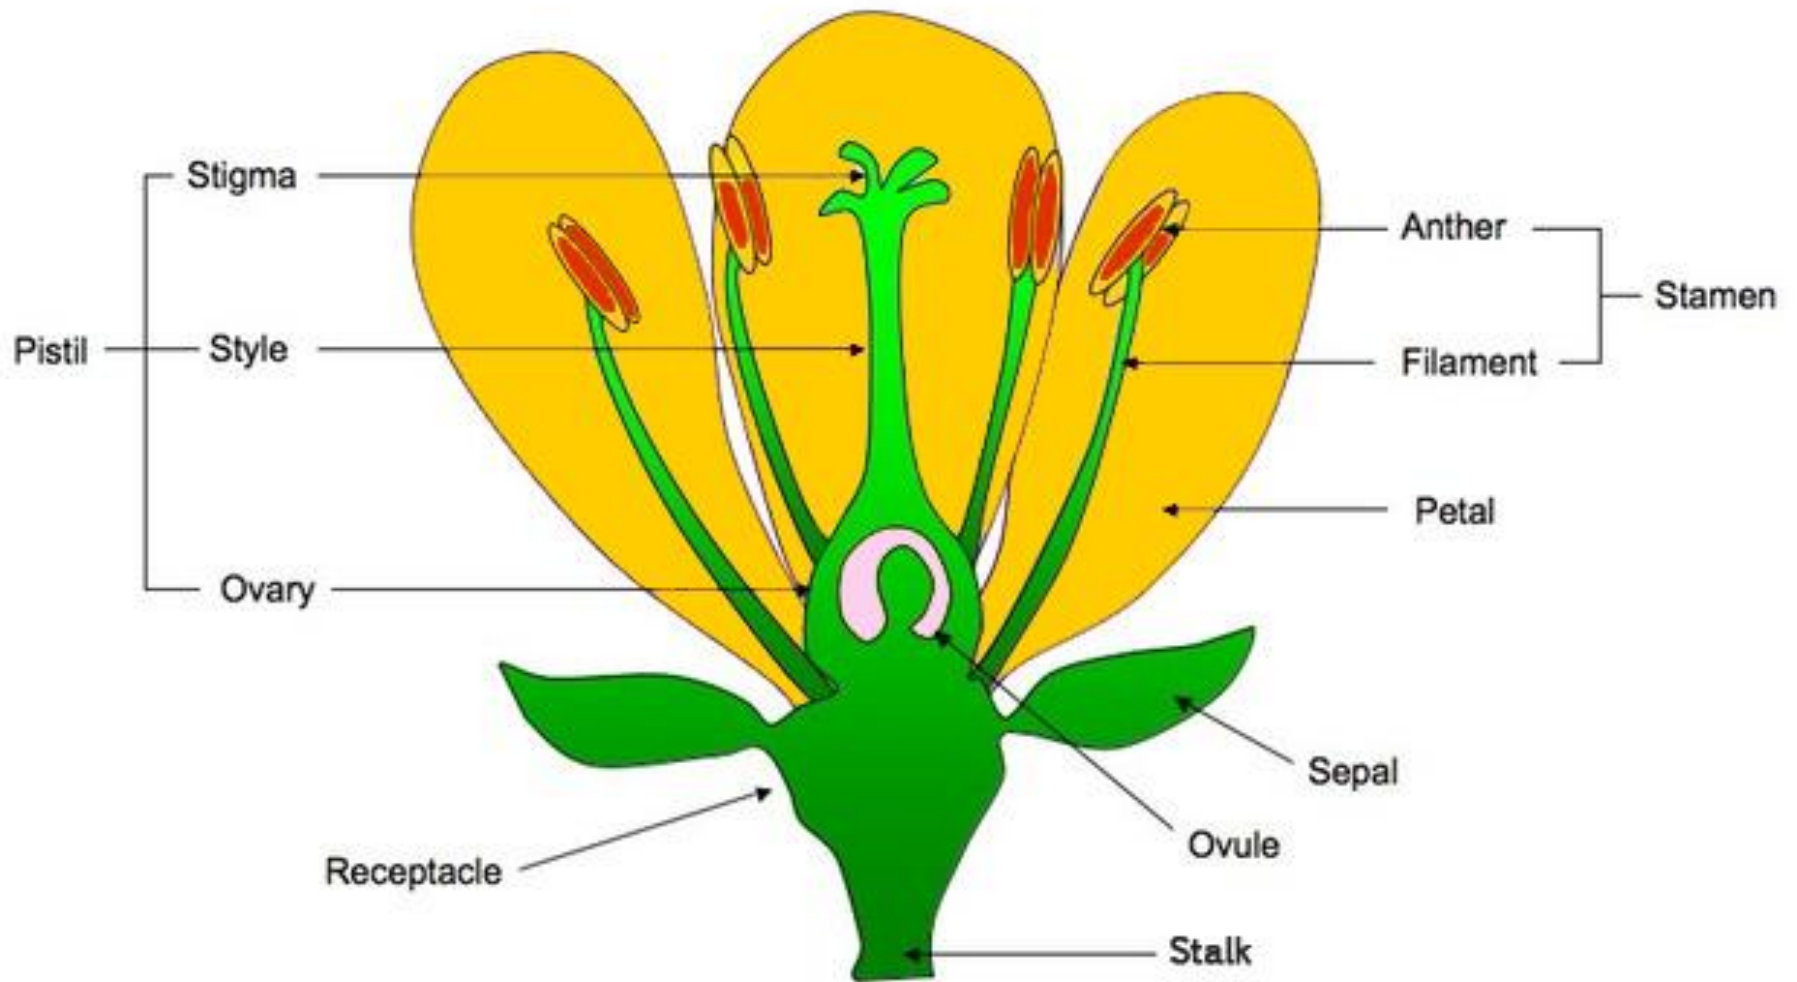

Discuss with someone which flower is the odd one out and why.  
Any answer can be correct as long as you give reasons.

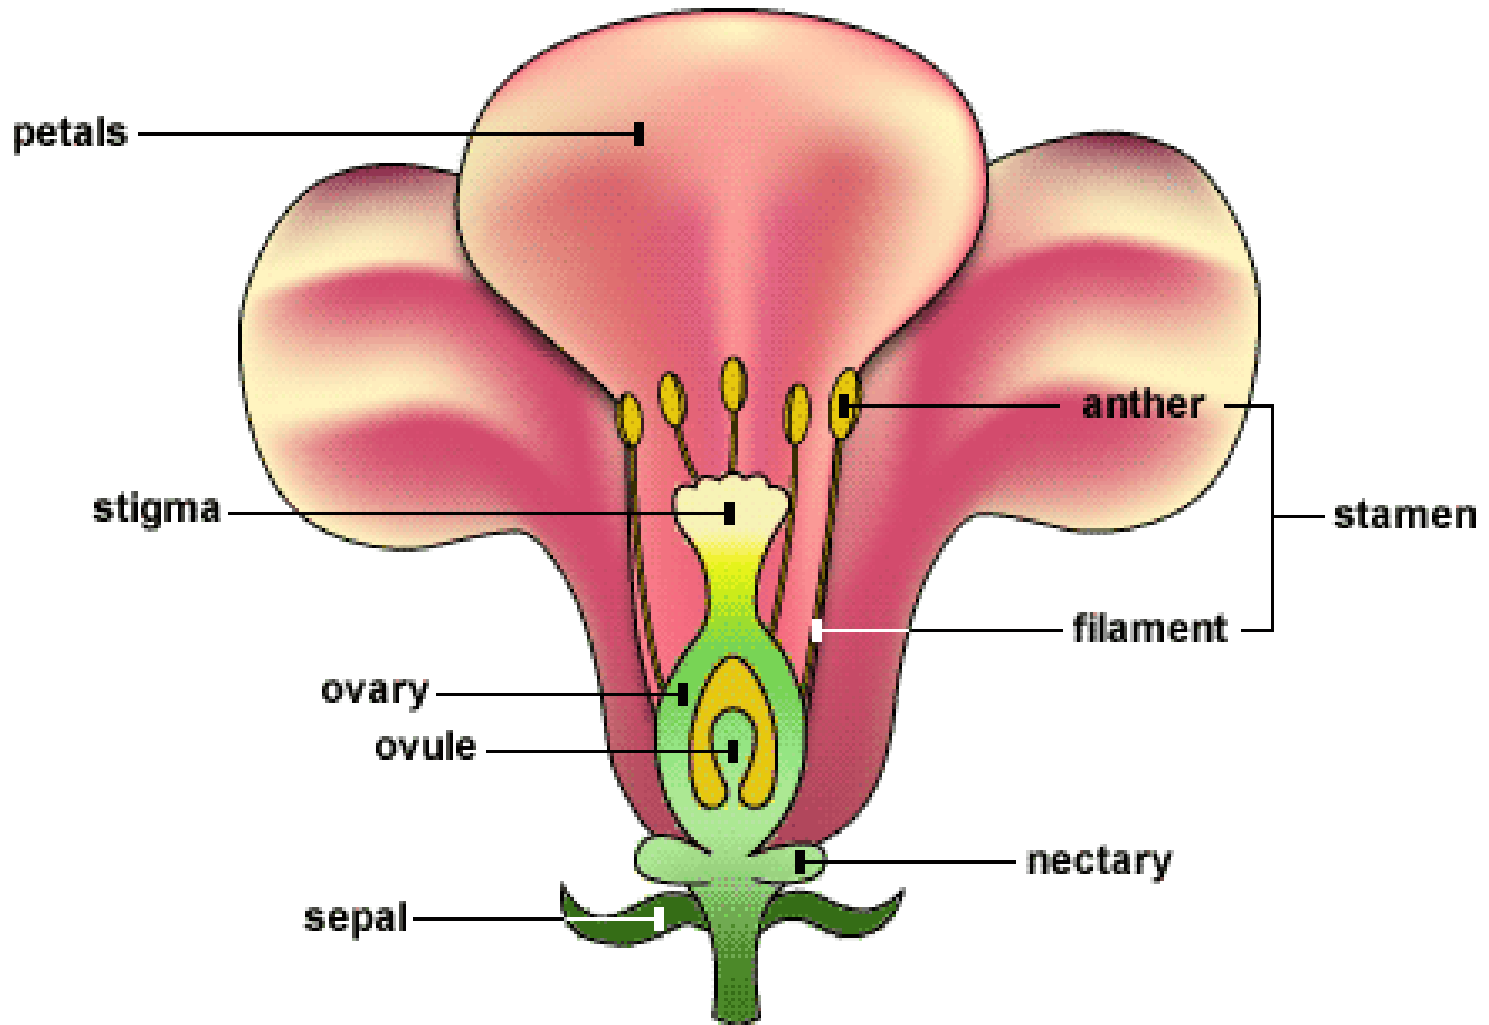

# Parts of a Plant

# Parts of a Flower

# Parts of a Flower

Watch this video to find out about pollination

## Dissect a Flower

If you can, find or buy a flower and dissect it. Remember to:

1. Cut the parts carefully with adult help
2. Stick the parts to a piece of paper using sticky tape
3. Label the parts

## Draw a diagram of a flower

Draw a labelled diagram of a flower, labelling each part and describing its role.

Ovary	protect the unopened flower bud
Sepal	may be brightly coloured to attract insects
Anther	the male parts of the flower consisting of the anther held up on the filament
Stamen	produce male reproduction cells (pollen grains).
Stigma	the top of the female part of the flower which collects pollen grains
Petal	produces the female reproduction cells (ovules)
