POWer Project Information

(for children and parents)

- Learning can be presented in any format.
For example: *a written project, a fact file, a poster, a powerpoint, a video, a voice recording or any other way you feel appropriate.*
- All work should be a child's own and use their own words.
If your child does not have the skills to be able to write at length, they can be recorded (video or audio) talking about what they have found out and this can be uploaded as evidence.
- Children should complete the project individually, not working with their friends.
- Any work that is uploaded that does not appear to be a child's own, will not be considered for a PIN badge.
- Any work that is not comparable to the work they would normally produce in class will not be considered for a PIN badge.
- Children will not get a badge just for doing the project.
- All projects must be uploaded to SEESAW under the relevant assignment.
- If you have completed the project on paper, please upload a clear photograph of the work.

**PROJECTS NEED TO
BE UPLOADED TO
SEESAW BY
MONDAY 3rd
NOVEMBER.**
