

Sunflowers' Newsletter

30.11.2020

Dear Parents,

This week we are immersing ourselves in to Christmas. Ask your children about a special letter we have received and what important task the Sunflowers have been set!

Phonics

This week ,we will be learning the sounds z, ch, qu, x

PHONICS TRAINING

Please remember to log on to Google classroom to view the phonics training video. This will give you ideas on how best to support your child with their phonics learning. When you have viewed the video, click on hand-in. Also, please try to complete the parent survey on the training. A link was sent via email last week.

Tapestry

Over the next few weeks you will notice that there are less observations on Tapestry while we make preparations for Christmas and assess the children's progress so far. However, remember to check on the class webpage for photos of the children's learning. This is usually updated on Monday evenings.

Maths– Light and Dark

This week we will be focusing on one more, one fewer.

Show your child groups of items and ask which has more. Can they say how many more? Give them a small number of items and ask them to add one more each time. How many have they got now? Repeat taking one away each time.

Build towers from blocks or lego. Who has the biggest tower? Who has the smallest?

PE kits

PE kits will need to come to school as usual this Friday. Please only send these on

Thank you for your support,
Mrs Munday and Mrs Beckley
