

Geography

Mapping Y6

We will practise these skills:

- Follow a short route *on a map*
- Draw own detailed sketch maps
- Draw plans of increasing complexity, beginning to understand scale

We will learn:

Map scale is the relationship between distance on a map and the corresponding distance on the ground. eg. 1:100000 scale map means 1 cm on the map is 1km on the ground

We will learn about significant people such as:

Kenneth Field

Author of best selling book 'Cartography, he specialises in the production of thematic maps.

We will use this vocabulary:

map, plan, route, bird's eye view, key, symbols, orientation, North, satellite, aerial, scale
