## Compare and Order Numbers

4324 > 3243  
greater than

879 < 2126  
less than

We look at the digit in the ones column when comparing the numbers. If they are the same, we compare the digits in the next column.

## Rounding

Rule: Underline the digit and look in the next column. If it is 5 or above, add one more. If it is 5 or below, the digit stays the same. Everything after the digit is a zero.

524 → 520

435 → 400

1,000 more is adding 1,000 to the original number.

1,000 more than 4,536 is 5,536

1,000 less is subtracting 1,000 from the original number.

1,000 less than 4,536 is 3,536
