Sunflowers' Newsletter

This week we are immersing ourselves in to Christmas! We have already been learning about the Nativity and Advent as well as learning a Christmas poem and Christmas songs. Find out more next week!

Christmas stamps

As you may have read in the school newsletter from Mrs White, from this week the children are allowed to purchase stamps at a cost of 2p each to post Christmas cards to their friends. If your child brings in money to buy stamps it must be in an envelope with their name, class and the amount of money in it written on the front. In Sunflowers class, please let your child hold this envelope in to school so that it can be taken from them first thing- this saves us rooting around in school bags! The stamps usually come home on the same day so that you can attach them to your Christmas cards at home.

PLEASE NOTE: There is no expectation that children give Christmas cards; this is completely optional.

If there are any other letters to be returned to school eg. School Association Sponsorship forms/school disco etc. then please allow your child to carry these envelopes in their hands too.

Maths– There you are 4 and 5

This week we will be focusing on one more, one fewer. Show your child groups of items and ask which has more. Can they say how many more? Give them a small number of items and ask them to add one more each time. How many have they got now? Repeat taking one away each time.

Build towers from blocks or lego. Who has the biggest tower? Who has the smallest?

Phonics

This week, we will be learning the sounds th, z,ch, qu.

The videos on google classroom shows the formation of each letter which can be combined to make the 'special friends' eg. th, ch

Thanks for your help in teaching your child how to close their winter coat. Almost all children can do this independently now.

Please double check that all items of Winter clothing have got name labels so that everything goes home with the right child!

Thank you for your continued support.
