Sunflowers' Newsletter

The children enjoyed the story of 'Goldilocks and the Three Bears' last week and became expert story tellers!

This week we will be looking at the changes that are happening because of Autumn. You may have seen my appeal on google Classroom asking for leaves, pine cones, sticks etc. If you have any of these then please bring them in. Thanks to anyone that has sent things in already.

Welcome Assembly

In the first term Year 6 welcomed the YR children in to school by holding an assembly for them. The video of this assembly is now on Google Classroom.

Please Note: There were many absences due to sickness at this time so you may not see your child on the video.

Maths– It's Me 1,2,3

This week, we are looking at different ways of showing 1,2 and 3. Ask your child to draw you a number of dots/objects/pictures. Ask them questions like- 'How many will you have if you draw one more?' What if I hide one, how many now? We will also practice how to write the numbers accurately.

Phonics

This week we will be learning the sounds u, b,f,e, You can help your child to practise these sounds by looking for things around the house or outside beginning with the sound. Spend time reviewing previous sounds learnt as well.

New videos will be uploaded to google classroom to demonstrate the correct letter formation.

We are also learning to blend all our sounds together to read words. This video shows how you can support your child with this at home

<https://www.youtube.com/watch?v=MNyFikwNQTg>

Book Trust

This week your child will be given a free book from the Book Trust. This also contains a useful leaflet with tips on how to support your child with reading.

PE

PE will resume this Friday 12th November. PE will be inside so children will need their indoor kits.

Name labels

We try to make sure that the children have their correct items when they go home. Occasionally, things do go missing and while we do our best to return items to the correct person if they are not labelled this makes things very difficult. Please ensure that everything is labelled including hats, scarves and gloves. If your child comes home with something that is not theirs please return it to school the following day.

Thank you for your continued support.
