Sunflowers' Newsletter

Last week, the children enjoyed learning about the Commonwealth games and even made their own medals which I'm sure they shared with you at home. Look on the website for some pictures.

Story

This week we will be focusing on the story of 'Handa's Surprise'. If you are unfamiliar with the story there are a number of versions available on Youtube. The children will be drawing fruit and then using it to make a fruit salad. Talk about different fruits at home and perhaps encourage your child to taste something that they haven't had before.

Maths: On the Move

This week we will be focusing on problem solving. Using the book Harry and a bucketful of dinosaur the children will figure out various problems eg. How many legs are in the bucket? You could use stories at home to look for Maths problems eg. in stories about animals, 'how many animals on this page? How many eyes have they got? Can we use doubles to figure it out?

New morning arrangements

As mentioned in last week's newsletter the children will now be lining up on the playground where the reset of the school line up. This is to help them prepare for starting year 1.

Please come in the same gate as you do at the end of the day and then send them over to the adult who will be waiting there to register them.

We would really appreciate you getting in as close as possible to 8.30am because as soon as all of the children are there we can go in and start our day.

Thank you for your continued support.
