

Understanding of the World Activity

Draw a picture of a snail (you may find snails in your garden, or find a picture on the internet). Label the different parts of your snail drawing.

This week's additional activities are based on the story of "The Snail and the Whale" to link the learning with this week's Maths activities. If you don't have the book at home, you'll find the story here:

Wellbeing Activity

The snail experienced lots of different emotions in the story. Talk about the different ways he felt, and what made him feel this way. Think of how you could show these different feelings. Maybe you could make your own facial expressions and take photos of them. You might like to draw or paint pictures of them.

Physical Activity

When the snail and the whale went into a storm there was zigzag lightning. Make your own 'zigzag lightning' picture. You could draw this in sand, with paints, with collage or just on paper.
