

Seasonal Changes (Spring)

Year 1

Knowing More, Remembering More

Remembering previous learning

How many seasons are in one year? Four

What are the four seasons? Spring, summer, autumn, winter.

What happens to trees in Autumn? Some trees lose their leaves.

What happens to the days in Autumn? The hours of daylight start to become shorter and the nights start to become longer.

What is the weather like in Autumn? The weather often changes.

What happens to the days in winter? There are fewer hours of daylight and the nights are longer.

What is the weather like in winter? The weather is often cold in winter.

In this unit children will:

- Observe changes across the four seasons.
- Observe and describe weather associated with the seasons and how day length varies.

Working Scientifically:

1.1 Ask simple questions.

1.8 Gather and record simple data.

1.9 Sort objects and living things into groups based on simple properties.

Key Learning Steps:

1. Changes in spring
2. Collect and record data

Key Vocabulary:

- season
- spring
- daylight
- night
- weather
- rain
- cloud
- wind

Key Scientists:

Classic

Daniel Gabriel Fahrenheit (1686 - 1736)
Invented accurate thermometers.

Knowing More, Remembering More

Knowing more in Y1

What happens to plants in spring? In spring, plants start to grow.

What happens to trees in spring? Some trees regrow their leaves.

What happens to the days in spring? There are more hours of daylight and the nights start to become shorter.

What is the weather like in spring? The weather often changes quickly in spring but is becoming warmer.
