

Wildlife

Year 2

Knowing More, Remembering More

Remembering previous learning

What do all animals need to survive? All animals need air, water, food and shelter to survive.

In this unit children will...

- Find out why it is important to care for wildlife.
- Learn that humans, other animals and plants can depend on each other for survival.
- Explore ways they can support wildlife within the school environment.

Working Scientifically:

- 2.1 Ask simple questions and recognise that they can be answered in different ways.
- 2.12 Use their observations and ideas to suggest answers to questions.

Key Learning Steps:

1. What does wildlife do for us?
2. What can we do for wildlife?

Key Vocabulary:

- food chain
- wildlife
- habitat
- crops
- insect
- nature
- local

Key Scientists and Sustainability Champions:

Contemporary
Pope Francis

In his encyclical, Laudato Si, Pope Francis encourages us all to be better stewards of creation and take better

Contemporary
Steve Irwin

Australian wildlife conservationist and tv personality who achieved fame as the host of The Crocodile Hunter.

Contemporary
David Bellamy

An English botanist, tv presenter, author and environmental campaigner.

Knowing More, Remembering More

Knowing more in Y2

Why is it important to look after wildlife?

Humans, other animals and plants all depend on each other for survival.
