Sunflowers' Newsletter

The children did some super storytelling last week and were keen to earn their rainbow sticks that we reintroduced.

Rainbow challenge

As a reminder for you, the children are set challenges through the week across different areas of learning. If they complete the challenge they receive a coloured stick with the aim of getting all the colours by the end of the week. Children who get all their sticks have a rainbow sticker added to their display in class. This really motivates the children to explore different aspects of their learning.

Story

We are exploring another traditional tale this week- 'Little Red Riding Hood.' We will use puppets and pictures of the story to help retelling and encourage the use of describing words.

Maths

This week we will continue to use numberblocks resources from BBC to consolidate all that the children have learned so far in maths. This week we are concentrating on the numbers eight, nine and ten.

Phonics

New red words for this week will be added to the video on Google Classroom. Please continue practising these words.

Thank you for your continued support.
