Sunflowers' Newsletter

8th March

We are so happy to be back together at school. This week we will spend time revisiting our rules and routines while giving the children lots of time to play together and to get to know each other again.

Reading books

Each continent group will change their books on the same day as before. Please ensure that your child has their reading folder, with their reading record, library book and Oxford reading tree book, in their bag on the correct day. *If you have already sent this back to school that is fine.*

Asia (black group)- Monday
Africa (yellow group)- Tuesday
America (green group)- Wednesday
Europe (blue group)- Thursday
Australia (red group)- Friday

While you are waiting you for your next book please make use of the online books on Oxford Owl
www.oxfordowl.co.uk
Comment in the reading record 3 times per week.

Phonics

We will continue revisiting the set 2 sounds while we assess the children's phonics progress. You can support your child at home with learning red words which will be available on Google Classroom- I will update this weekly with any new red words.

Maths

This week we will be looking at 3D shapes and making patterns. Look at everyday objects and talk about the shapes you can see on each face. Do some action patterns with your child; clap, jump, hop, clap, jump, hop/ clap clap, jump, clap clap, jump. How complicated can they make it?

PE

PE is going to be outside this term. While it is still cold, please provide your child with a tracksuit to wear outside. PE will take place every Friday; PE kits should only come to school on that day.

Thank you for your continued support.
