

Seasonal Changes (Winter)

Year 1

Knowing More, Remembering More

Remembering previous learning

How many seasons are in one year? Four

What are the four seasons? Spring, summer, autumn, winter.

What happens to trees in Autumn? Some trees lose their leaves.

What happens to the days in Autumn? The hours of daylight start to become shorter and the nights start to become longer.

What is the weather like in Autumn? The weather often changes.

In this unit children will:

- Observe changes across the four seasons.
- Observe and describe weather associated with the seasons and how day length varies.

Working Scientifically:

1.1 Ask simple questions.

1.8 Gather and record simple data.

1.9 Sort objects and living things into groups based on simple properties.

Key Learning Steps:

1. Changes in winter
2. Collect and record data

Key Vocabulary:

- season
- winter
- daylight
- night
- weather
- rain
- cloud
- frost
- sun
- snow
- sleet

Key Scientists:

Contemporary
Laura Tobyn
A meteorologist and weather presenter on TV.

Knowing More, Remembering More

Knowing more in Y1

What happens to the days in winter? There are fewer hours of daylight and the nights are longer.

What is the weather like in winter? The weather is often cold in winter.
