

This is an activity to practise using your 'word processing' skills using **WORD**.

Open up a WORD document and copy this writing.

Remember to use CAPITAL LETTERS, full stops,

question marks (?), commas, spaces, **bold text**,

underlining and **colours** for the words **hot** and **cold**.

Add a suitable picture for each section. (You can use the ones that I've found or add your own)

If you can't remember how to use the different features, ask an adult or just practise copying the words. Good Luck!

Holidays in Europe

Are you looking for a **cold** holiday, skiing in the snow?

If you are, suitable places to go in Europe are the mountains in France, Italy and Switzerland.

(add picture)

If you wanted to go on a **hot**, beach holiday, suitable places to go in Europe are Spain, Greece and Portugal, where the weather is usually very warm.
