

YEAR R NEWSLETTER 22.6.2026

Last week we continued our Keeping Healthy topic by learning about foods that are healthy and unhealthy.

This week the children will be writing their own sports-based stories.

Maths: Number bonds to 10

These next few weeks we will be focusing on making ten by using number bonds. You can support at home by getting ten objects- hide some and ask how many can they see how many are hidden.

There are lots of games online which support quick recall of number bonds:

New morning arrangements

As mentioned in last week's newsletter, the children will now be coming in to school independently like the rest of the children in school. This is to help them prepare for starting year 1.

Please come in either gate on the playground. Your child can then walk themselves to the gate of the reception garden (near their cloakroom). If you have any messages that your child can not pass on to the adult then please contact the school office.

Warm Weather

With very warm weather forecast this week please make sure that your child has a water bottle in school every day. We will make sure that these are refilled at lunchtime and any other times needed during the day.

Please make sure that your child has their sunhat at school, check their name is in it.

We will plan activities this week where the children can access water to play with to help them keep cool.

Own clothes day

This Thursday is own clothes day in exchange for bringing sweets for the Family Festival.

Please DO NOT put your child in shoes with laces. The last own clothes day we spent the day retying laces! If your child cannot tie their own laces, they should not be wearing lace up shoes.

Thank you for your support with this.

Thank you for your continued support.
