Sunflowers' Newsletter

Make sure that you look on our learning page to see photos of the children being super scientists last week. They spent lots of time looking for bugs and finding things that grow. They are very excited to see our seeds now growing in to healthy seedlings after a good dose of rain! We just need a bit more sunshine now and we might have our very own beanstalks!

Meet with the Teacher

If you haven't already, please watch the Meet with the Teacher video on Google Classroom which has information about the rest of this term. When you have watched it remember to hand it in.

Story

This week we will be learning more about different animals that we might see in Spring such as lambs, chicks and bees. We will think about how the animals move and create a dance using music from the Four Seasons by Vivaldi.

Remember to add pictures to tapestry if your children try any of their learning at home such as bug hunting or looking for things growing.

Maths: First, Then, Now

This week we will be learning about taking away using the language of first, then, now to tell Maths 'stories' eg. **first** there were 8 people on the bus, **then** 2 got off, **now** there are 6 people left on the bus. We will be relating this to the symbol for subtraction.

You can support your child at home by trying to use the same language. **First** there were 4 people in the car, **then** Mum got out, **now** there are 3 people in the car. You can also use blocks or Lego to show which has fewer and count the difference between towers.

Relationship Education: Created and loved by God

In the final session of unit 3 of the 'Live Life to the Full' programme called 'Emotional Wellbeing', the children will move away from Freddy Teddy and his friends and being to look at a real life example of a challenging situation like pupils might face. They will learn that actions have consequences and that when we make mistakes we should say sorry and ask for forgiveness.

Reading

Just a reminder that there are 2 books in the reading folder. The one with the stars in the corner is a library book- we don't expect the children to be able to read this book it is for you to share together.

Thank you for your continued support.
