

Science Activity – Lesson 2

Habitats

A Habitat is a type of natural environment in which a particular animal or plant lives.

Have a look at the different habitats on this website.

<https://www.bbc.co.uk/bitesize/clips/zjynvcw>

Look at the different habitats around the world to learn about the different plants and animals that live in it.

<https://www.bbc.co.uk/bitesize/topics/zx882hv>

Complete the quiz for each habitat to check your knowledge.

Record- Draw a particular habitat with the different organisms in it and describe the conditions of what it is like (damp, dry/light dark, warm/cold)

Talk about the features of the habitat and how it helps the plants or animals to live, grow, reproduce and survive.
