

YEAR R NEWSLETTER 24.2.2026

We hope that you have all had a lovely half term. The children were excited to return to school this morning and tell us all about the lovely things they got up to in the half term. Lets hope for continued sunny weather this term!

Phonics

This week we are revising and consolidating previously taught sounds before moving on to chapter 3 sounds next week.

This term we will also focus on getting the children to write more short phrases and simple sentences. More information to follow.

Maths– Length and height

This week we are learning about length and height. We will be using cubes to ‘measure’ how long/tall objects are. At home you can measure by using items that are roughly the same length eg. pieces of pasta. Can your child measure how many pieces of pasta long a fork is etc. ?

As Lent is now upon us, this week we will be focusing on learning about what Lent means and what we can do in the preparation for Easter.

More information to follow next week on this term’s new topic.

Stations of the Cross

During Lent the school community is invited to St Vincent’s church every Friday at 3.30pm where the older children tell the story of Jesus’s journey to the cross.

School mass is this Sunday 1st March. I hope that the children are able to join us to help us with their wonderful singing

Power Project

The closing date for the latest Project is 2nd March. Ensure that evidence for tasks completed is submitted on time.

Class Assembly

Parents are invited to attend our class assembly this term on Friday 27th March at 2.15pm.

Thank you for your continued support.
